Objective:

Quality Control Engineer with 3 years of experience in Soil, Aggregates, Concrete, and Asphalt testing and technical reporting for large infrastructure projects, including Electric Express Train and West SOHAIL Road Development. Seeking to contribute my expertise in QC and materials testing to major engineering consultancy projects.

Education:

- B.Sc. in **Geophysics Science**–AL-Azhar University, Assiut (May 2022).

- Grade: Very Good.

- Graduation project:

- Applications of Geophysical Methods in Road and Construction Projects (Excellent).

Work Experience:

- 1- Lab Engineer, Top Surface for Quality Control Services - Electric Express Train. “Supervised QC testing and technical report for soil and Aggregates of 4 Km on the Electric Express Train project ensuring compliance with standards.” (June 2022-June 2023). In QENA
- 2- QC Engineer, Top Surface for Quality Control Services – Electric Express Train. “Supervised QC testing for Soil, Aggregates, and Concrete works for Slopes and Inclinations, (From station 443+666 to 448+666), Prepared and validated technical reports that improved accuracy of site documentation on the Electric Express Train project ensuring compliance with standards.” (June 2023 – June 2024). In SOHAG.
- 3- Consulting Quality Engineer representing the owner (Engineering Authority – 97th Roads Battalion), “Supervised the execution of 8 Km of roadworks in the West SOHAIL Road Development Project.” (June 2024-Jan 2025). In ASWAN.
- 4- QC Engineer, Four Technology Lab (4TL) – TAHTA station of Electric Express Train. “Supervised QC testing and technical report for soil, Aggregates and Concrete (P.C-R.C) on the TAHTA station of Electric Express Train project ensuring compliance with standards.” (Jan 2025-Now). In SOHAG.

Training and Courses:

-During the summer vacations, while studying, I trained in some companies:

- 1- Geophysical course at the Research Observatory (Helwan). (2019).
- 2- Weekly Geophysical Training in the Engineering Consultations Course (Giza). (2020).
- 3-Four months as Qc Technical in (CEL) Lab. (2021).
- 4- Field Training in the Eastern Desert and the Red sea Mountain Ranges. (2022).
- 5- Laboratory course at a Ready Mix Concrete Station. (2022).

skills:

- **Technical Skills:**

1-Proficient in laboratory testing and technical reporting for soil, aggregates, concrete, and asphalt.

2-Extensive experience in road works and construction projects.

3-Strong knowledge of geophysical methods and their applications in roads and construction.

- **Software:**

1-MS Office (Excel, Word, and PowerPoint).

- **Soft Skills:**

1-Team leadership.

2- problem-solving.

3-decision-making.

- **Language:**

-Arabic: (Native).

-English: (very good).

Courses:

1. Professional Geophysicist Engineer.

2. Professional Site Quality Control Engineer.

Personal Information:

-Military: Exempt.
